Wireframes and basic flows

VIP Status on Main UI

Current

With VIP Status

VIP2 is most probably a graphic asset, not a text box

(and similar) are free library assets, and not at all the art direction the asset should have

On tap

Examples of icons and texts

\$VIP_PP_Title

\$VIP_PP_Desc

“Display [food_icon] per second”
(\$VIP_PP_V1Desc)

“Display cargo usage per second”
(\$VIP_PP_V2Desc)

“Display when your closest deliverer will arrive”
(\$VIP_PP_V3Desc)

VIP Status Effect

Info display: by type

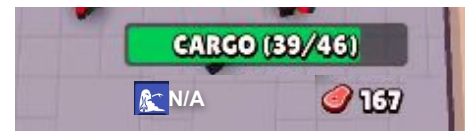

VIP1

VIP2

VIP3

Info display: adaptation to number

If one of the info is , it stays where it is even when no target is grabbed and the other information pieces are not displayed

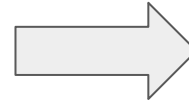

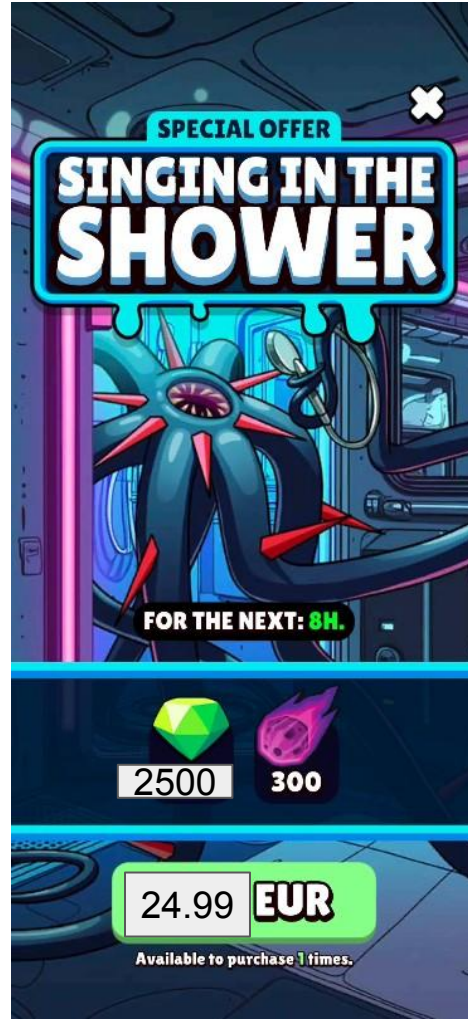

VIP Status on Adaptive Offers

Full screen offers

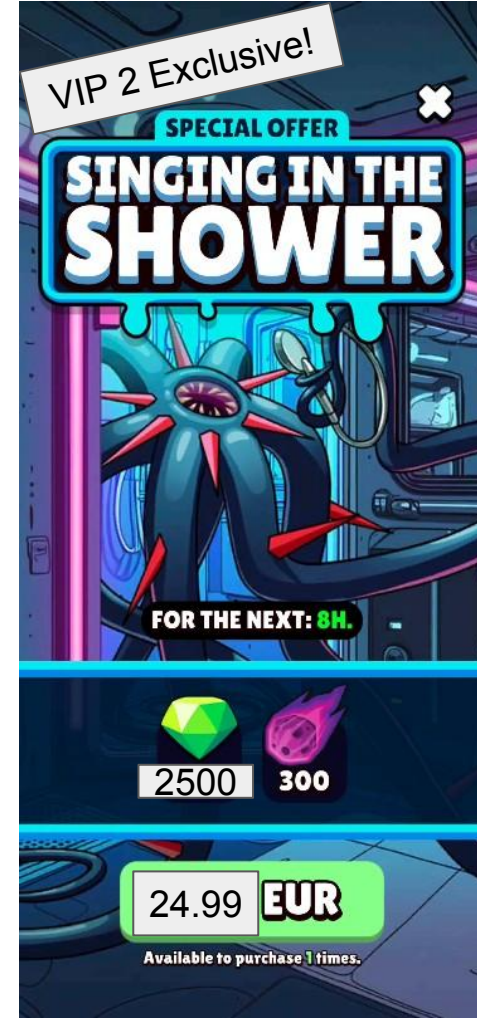

The label is full (“VIP [X] Exclusive!”) and displayed above the title

Label is a graphic asset, not a text box

Current

With VIP Status

Pop-up offers

The label is short (“VIP [X]”) and displayed below the existing label or in the upper left corner if there is no label

Label is a graphic asset, not a text box

VIP Status change on
any Offer

Full screen offers

If an offer would change players VIP Status, it is mentioned above price

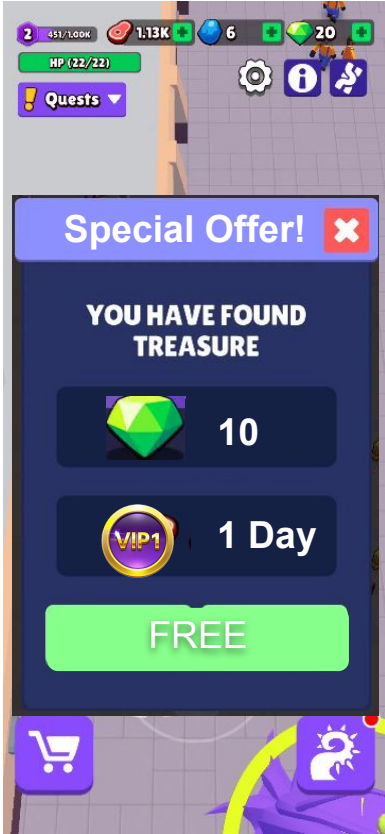

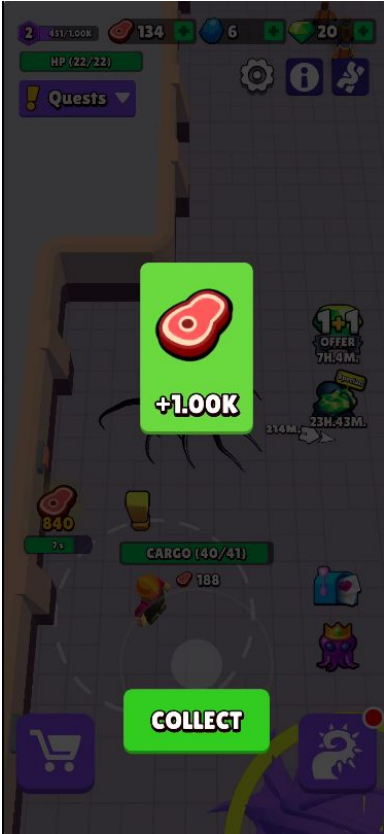

Pop-up offers

If an offer would change players VIP Status, it is mentioned between price and remaining time
